I am planning on taking STEM courses as part of my college program of study.

I am planning on majoring in a STEM field.

I am planning on a career in a STEM field.

I find the STEM fields to be interesting.

I believe I have the ability to complete the STEM major of my choice.

I believe attaining a STEM degree is worth the effort.

I think that learning STEM is important.

When STEM activities are too difficult, I give up, or only do the easy parts.

When learning new STEM concepts, I attempt to understand them.

I attempt to find connections in STEM courses between the concepts that I learn.

When I make mistakes in STEM courses, I try to find out why.

I think STEM is needed to help solve the problems of today.

I take STEM courses because the content is exciting and dynamic.

I take STEM courses to get a job with many opportunities.

I take STEM courses to get a job with many opportunities.

I take STEM courses to get a job with many opportunities.

I take STEM courses to get a job with many opportunities.

I take STEM courses because I want to help people.

I feel supported and encouraged by the Waubonsee Community College.

I feel confident about succeeding in STEM courses this semester.

I feel confident that I will attain a degree in STEM.

I feel supported and encouraged by STEM programs on campus.

I know how to handle classroom situations in which I need a lack of support.

I feel confident that I have a degree in STEM.

I know how to handle classroom situations in which I need a lack of support.

I know how to balance personal, academic, and work aspects of my life.

I am comfortable working with people different from me.
