

How do we
define
student
success?

Learners define their success not just as advancement towards graduation and a good job but as a more holistic sense of completion.

Student success refers to an institution with the resources to support a socially and culturally diverse student population.

How many credits are students completing in spring terms?

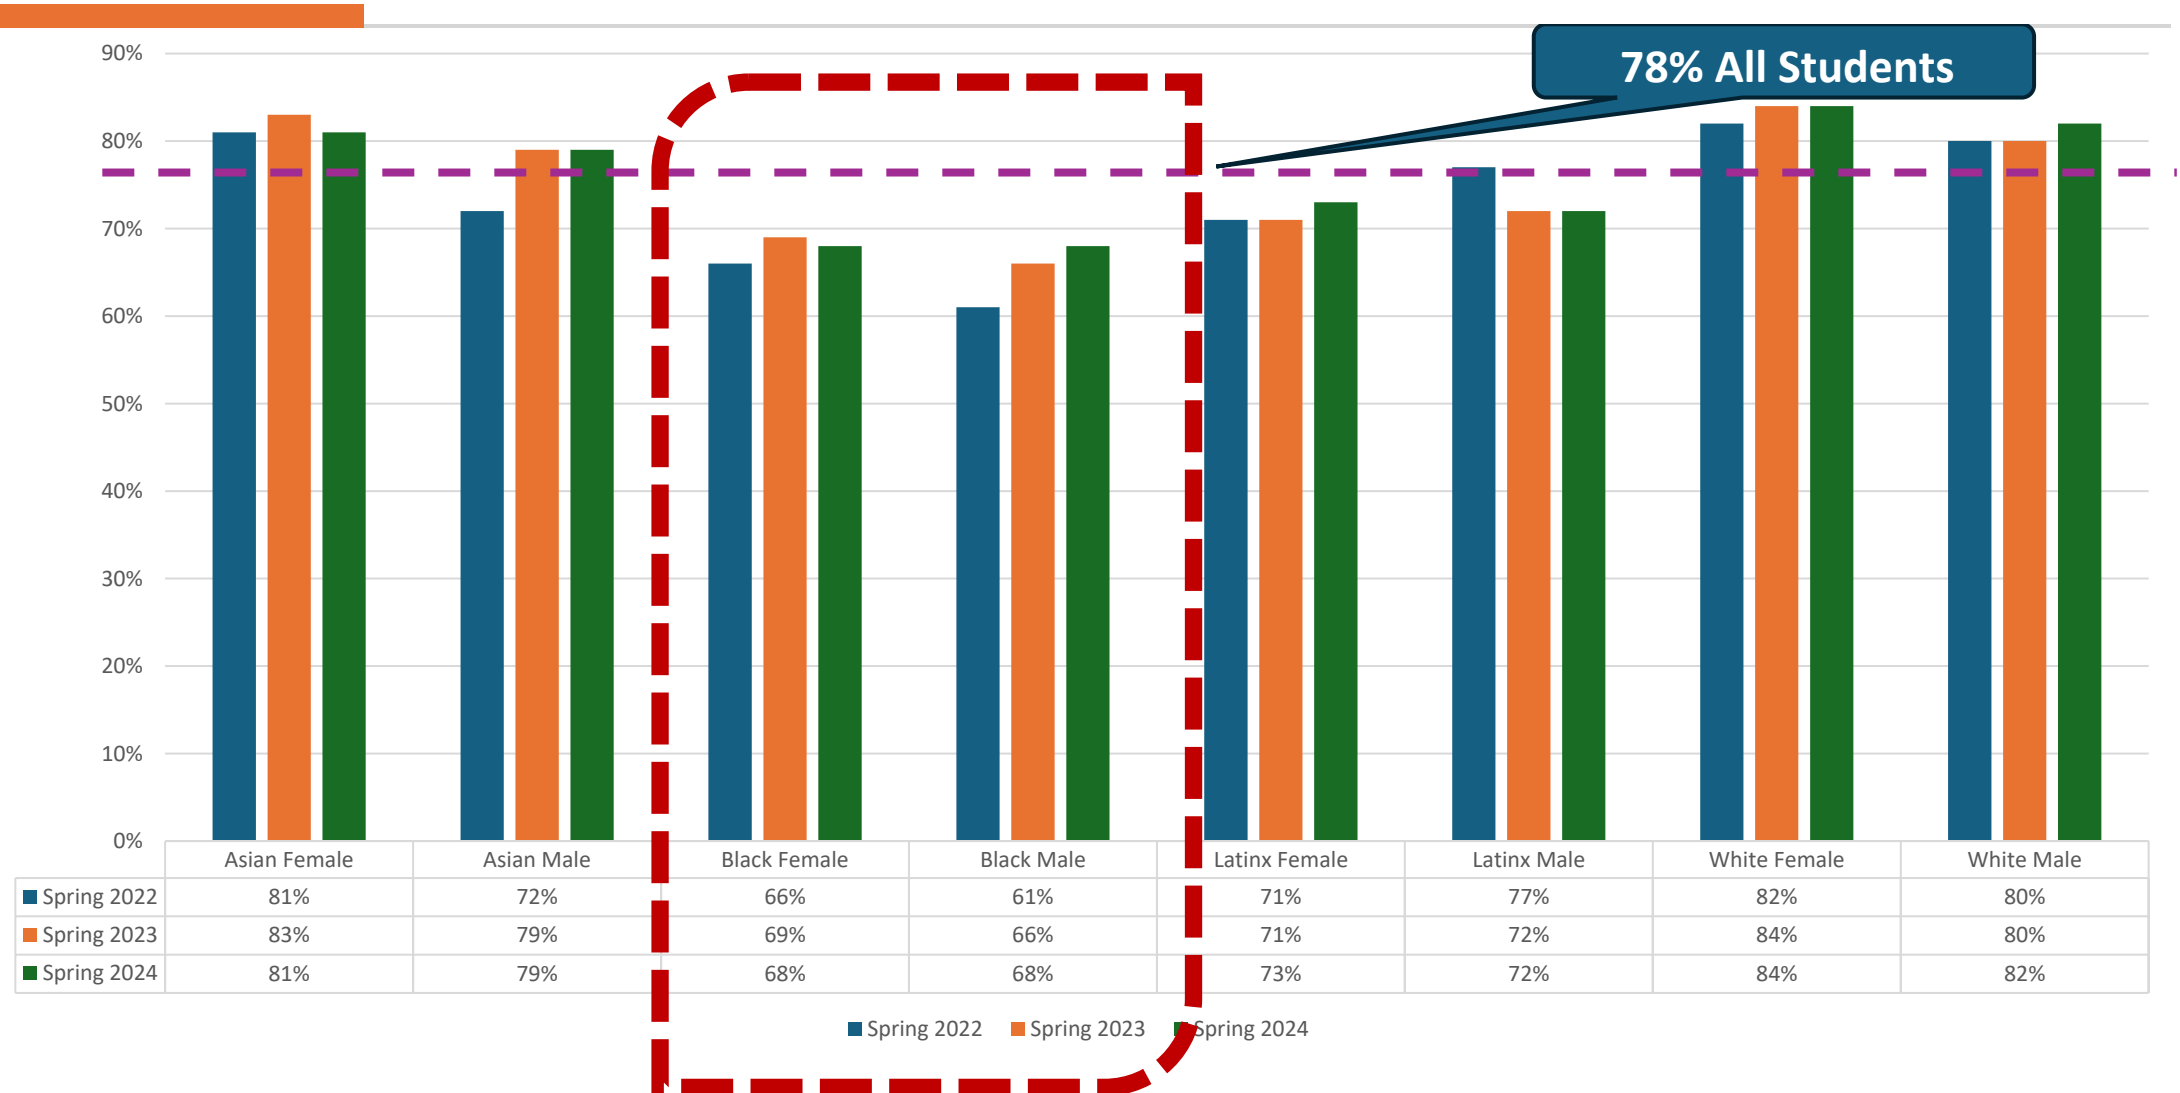

What does
this tell us?

**Consistent 10% difference
between attempted and
completed hours**

Success Rates (A, B, C in a Course) by Race and Gender
