

BASEBALL FACILITIES IMPROVEMENT PROJECT (BFIP) SCOREBOARD REPLACEMENT 2026-10/22
BID PROPOSAL ADDENDUM 1 (FINAL)

No questions were received from eligible vendors.

Waubonsee Community College is posting the following confirmations:

- 1) No archival information exists about the current scoreboard or structural foundation.
- 2) Protection was pertaining to the Fixed digital displays was emphasized. Pros and cons of various measures were discussed. Waubonsee Community College does encourage vendor-preferred solutions, but is receptive to including the cost of attic stock replacement panels. Please include cost per item or package price.
- 3) Waubonsee also requests the vendor include the cost + overhead for completing submission of construction, product, and operational documents to our archival partner, EasyArchive.io. Archiving costs are based on project cost, however, the vendor fee should not exceed the minimum of \$250.00. EasyArchive price sheet is attached for reference.
- 4) Boring work for fiber between the marquee and the source at concession stand must be 2" diameter.
 - a. Fiber run must be terminated in appropriate LC connections.
 - b. Boring conduit must include an additional pull cable for future runs
 - c. Boring must contain a trace wire for future locating
 - d. Waubonsee IT will provide and install fiber/copper converter if scoreboard requires copper connections and FPC adaptors.

Construction Closeout Services

Project Evaluation
