

PROJECT ASSUMPTIONS

- The transformational statement is designed to guide the work of the board of trustees, faculty and staff and is not designed to be a marketing tool.
- Waubonsee will need a business model that is responsive to changing legislation and unpredictable funding sources.
- The College service area will be "boundary less," meaning districts will likely no longer exist and the College service area will not be geographically limited.
- There will be worldwide competition for students.
- Enrollment will not be dependent on regional population growth.
- Technology will be ubiquitous.
