## **Exhibit B: Waubonsee Community College's Position Statement on Internships**

Waubonsee recognizes the importance experiential learning has to a student's career development and employability. Such learning opportunities are to be closely-monitored work responsibilities that align with academic learning and career-related outcomes. Best practices recommend a supervisor meeting with the student on a regular schedule to reflect on the learning occurring and to mentor areas of growth.

**Waubonsee strongly encourages employers to pay their interns to ensure mutually beneficial outcomes and a real-world on-the-job experience for student interns.** Learn more on the background for paid internships [here](#).

Waubonsee is a member of the National Association of Colleges and Employers (NACE). We ask all employer partners to follow NACE professional conduct standards. Please read [NACE's Principles for Ethical Professional Practice](#) and [Guide to Internships](#) in their entirety.

### **Criteria for an Experience to Be Defined as an Internship:**

To ensure that an internship (whether in-person or virtual/remote) is educational and considered to be a legitimate internship by NACE's definition, all of the following criteria must be met:

1. The experience must be an extension of the classroom: a learning experience that provides for applying the knowledge gained in the classroom. It must not be simply to advance the operations of the employer or be the work that a regular employee would routinely perform.
2. The skills or knowledge learned must be transferable to other employment settings.
3. The experience has a defined beginning and end, and a job description with desired qualifications.
4. There are clearly defined learning objectives/goals related to the professional goals of the student's academic coursework.
5. There is supervision by a professional with expertise and educational and/or professional background in the field of the experience.
6. There is routine feedback by the experienced supervisor.
7. There are resources, equipment, and facilities provided by the host employer that support learning objectives/goals.

If these criteria are followed, it is the opinion of NACE that the experience can be considered a legitimate internship.
