

Interested in becoming a HIGH SCHOOL **SCIENCE TEACHER?**

Receive tuition assistance, paid teaching experience and more.

Year 1: First year students will work with science faculty as peer mentors/supplemental instructors (SI) in Waubonsee classes and will receive tuition assistance. Between terms, students may have the opportunity to gain additional experience through a paid one-week Northern Illinois University educational experience.

Year 2: The following academic year, students may continue to receive the stipend and tuition assistance as a Supplemental Instruction Lead for different science courses.

The Noyce Scholars Program is for you!

The NIU/Waubonsee NOYCE Program provides scholarships, internships, stipends, training and a support system for Waubonsee science majors interested in teaching high school science.

See if you are eligible!

- ✓ Majoring in science and interested in exploring teaching science as a career
- ✓ Resident of Waubonsee District 516
- ✓ United States citizen

Waubonsee Noyce students are eligible to apply to Northern Illinois University's Noyce Internship for **an annual scholarship** as a science education major for their junior and senior year, if they complete the program. Waubonsee Noyce students are not obligated to attend NIU or apply for the NIU Noyce Scholarship.

APPLY TODAY!
