

## Bachelor of Science in Health Sciences Degree Completion Emphasis:

### Transfer Guide for Waubonsee Community College

#### AAS Interpreter Training WCC 2020-2021<sup>1</sup>

The Bachelor of Science in Health Sciences program is designed to prepare the student to enter allied health and other health related fields. The health sciences program focuses on providing the student with a strong foundation through general education and health science-based curriculum with a focus on health care leadership skills, financial principles, management strategies, and standards to improve patient care.

The degree completion emphasis is off-campus/online and is designed uniquely for health and human sciences professionals. Applicants must be practicing health or human sciences professionals who hold a current professional credential, certificate, or license in a health or human sciences field and have completed an applied associate degree program or equivalent number of credits. The professional credential, certificate or license must be in the field in which the degree was earned.
